TORA BIG KAHUNA 8030

Wow see at what this herdsire has done. Look at his EPDs and his performance ratios. He measures 1.29 square inches of REA per 100 wt. With performance and EPDs like his just think of what his sons and daughters can do in your breeding pasture or in the feedlot and on the rail. He works very well used on heifers. Average calf birth weight is 82 pounds.

RLK MISSION SPECIALIST

We selected one of his heifer calves as a 4H project for our granddaughter. We have used him on heifers with no calving problems. He has 1.31 square inches of ribeye per 100 weight. Average birth weight for all his calves from cows and heifers is 81# not counting twins. His calves will work in the breeding herd, in the feedlot, on the rail, and on the plate.

WD50 Brazos 31N

What a genetic package Brazos offers! Sired by a carcass king GLACIER MARIAS 548 and from RABS MS FLOWER H70528. Weaning weight and yearling EPD's in the top ten percent with only a seventy pound birth weight. With his high heifer pregnancy, stayability, and good milk his calves have great potential. His ultrasound scan measurements are %IMF 3.26, REA 14.12, Fat 0.20. With his marbling and ribeye area EPD's near the top of the breed to make the icing on the cake. You can have your cake and eat it to, prime steak that is!!

Parker Coast 2 Coast P016

Sired by, Cherokee the breeds most complete bull, his dam is clean fronted, deep, correct with an abundance of thickness. She is a rare Marias daughter from Ludvigson Stock Farms stacked on the big spread bull Robin Hood 1174B.

Look at the performance he has to offer. Growth near the top of the EPD chart. He makes good milking daughters that will stay in your herd and produce. His sons will follow in his footsteps.

With his ribeye in the top one percent of the breed he sires good carcasses in his calves. His ultrasound carcass scan was 3.78% IMF, 12.52 REA, and 0.16" FAT.

He puts more ribeye into his calves. He is a great combination of growth and maternal

ability with a desirable carcass. He is line bred to Antonian Dynamo.

MEADO-West Jazz

FCC Rambo, the sire of Jazz, is one of the most popular and proven sires in the Red Angus breed. he recorded an outstanding 894 lb. weaning weight

(113 ratio) with only an 80 lb. birth weight from a Panhandle heifer. His yearling carcass measurements are 4.34% intramuscular fat, 13.85 square inch. rib eye and .23 in. back fat. This bull is thick, stylish, clean fronted, very correct, and has a gentle disposition.

REV RADICAL JUDGMENT 703 is sired by MESSMER JUDGE 36N and from a LCC MAJOR LEAGUE A502M daughter. This bull's middle name should be thick! That is just what he is. With his excellent set of EPD's we have used him on heifers with no problem. He has an easy going laid back disposition.

He will make excellent daughters who can stay in your herd for many years to come and sons who will carry on in his footsteps. He measured a 17.50 inch ribeye, 4.14% IMF, and 0.36 FAT at 447 days of age.
